Excursions with a SP, SP-N or SP-S denotes a special pick up time with limited pick ups this is due to the distance of the excursion or to cut down the length of time travelling. Welcome to our 2012 excursion brochure

We hope there is something of interest for everyone. We have not only kept some of the traditional and more popular trips but introduced some exciting new ones.

Following requests from our clients some excursions which previously included the entry price have now been modified allowing you the opportunity of obtaining family reductions or other incentives by paying the venue direct. In most cases the contact details have been provided.

Throughout the brochure we have aimed to keep our prices as competitive as possible. In some cases we have introduced new excursions following a direct request from our clients and we would wish to carry this on in the future. We also encourage clients to tell us when we do well or even on the rare occasion when we don't do as well as expected.

To assist our clients with access to a smart phone we have included a bar code on the front cover.

Simply scan this with your phone and it will guide you directly to the Mayne website. Some users may need to download the appropriate free app in which to do this - see <http://gettag.mobi> for information.
